

# The Block

**Saving money on your block site costs means you will lower your overall home building cost *or have money to spend on other things.***

Because we have been building homes for families across the Central Wheatbelt for many years, we have the experience and local knowledge to save you real dollars on site costs by using local experienced contractors who know the terrain.

**The total price of your site costs is low because we are local designer/builders, we use our own machinery and equipment and our overheads are low by comparison with other builders.**

Save money and have peace of mind by calling us today or visiting our web site. It makes more than cents to choose a Stallion Home.
